

Microtek® ScanMaker® 6000

Raw imaging power at an incredible price. The ScanMaker 6000 reaches new heights in resolution for home users.

With enough power to enlarge standard photos or documents to poster-size files, the ScanMaker 6000 will appeal to anyone who appreciates high-quality imaging and affordable solutions. A 6400 x 3200 dpi optical resolution reproduces vibrant colors and superior images that are delivered across a blazing fast USB 2.0 connection for swift and speedy scanning. With 8 simple one-touch buttons and the intuitive, seamless workflow of Microtek's own ScanWizard software, it's easy too. Complete your home or office with the quality and resolution of a ScanMaker 6000.

Small yet powerful

- Super-slim EDGE Design packs CCD quality into a more efficient form factor
- 25% smaller without sacrificing scan quality

Turn back the hands of time

- Automatically restore faded colors back to life with Microtek's exclusive ColoRescue™
- Works on photos and film with just one click

Brilliant images made easy

- 6400 x 3200 dpi, high-resolution scanning at an affordable price
- Create poster-size enlargements of your favorite photos
- Eight easy-to-use buttons for one-touch simplicity on the most common tasks
- LightLid 35 film adapter provides easy and convenient transparency scanning for 35mm slides and negatives

Get results fast (and right out of the box too)

- High-speed USB 2.0 scanning to handle even the largest scanned files with ease
- Easy, plug-and-play set-up

MICROTEK
