

Microtek® Take-It™ D1/D3 Digital Cameras

With Microtek's take on digital, it's easier than ever to point, shoot and share... anywhere.

Take it for a spin! The Take-It D Series was built for people on the go. This sleek and classy camera is fitted with a rugged metal housing for durability and a professional feel. Plus, its small palm-sized fit makes it perfect for purse or pocket. Powered by a high quality 2.1 / 3.2 megapixel imaging sensor, it can create files ideal for printing your photos at sizes up to 8" x 10". And for those truly special moments, you can even record movies with sound. But even though it's loaded with bells and whistles, it's also incredibly easy to use. With simple one-touch buttons for common tasks and intuitive display menus, you'll be an expert in no time. So whether you're taking pictures of vacations, parties, and first days of school, of real estate or just a great sunset, the Take-It D Series cameras offer a combination of both power and ease of use in an affordable solution.
